In today's "experience economy," good food and attentive service are only part of the enjoyment of dining out. Increasingly, consumers are appreciating the value of dining in surroundings that delight their senses, engage their emotions, and excite their imaginations.

For nearly two decades, ITEC Entertainment has been creating outstanding themed dining venues in locations worldwide. We integrate inspired entertainment design with state-of-the-art show technologies in ways that are simply beyond the capabilities of ordinary commercial architects and interior designers. The result: unforgettable venues that diners will want to experience again and again.

ITEC Entertainment is one of the world's leading independent full-service entertainment design and technology firms. Whether we are creating a stand-alone dining venue or a facility to be integrated into a theme park, we pride ourselves on delivering a top-notch product.
