Whether visiting a mall, a retail district, or a theme park, shoppers today are interested in more than merchandise and good service; they are seeking an experience—something to engage their emotions, spark their imaginations, and enhance their buying mood. And that's where ITEC Productions comes in.

For nearly two decades, ITEC has been creating outstanding themed retail environments in locations around the globe. We integrate inspired entertainment design with state-of-the-art show technologies in ways that are simply beyond the capabilities of ordinary commercial architects and interior designers. The result: unforgettable retail venues that shoppers will want to experience again and again.

ITEC Productions is one of the world's leading independent full-service entertainment design and technology firms. Whether we are creating a stand-alone retail location, a mall-based venue, or a facility to be integrated into a theme park, we pride ourselves on delivering a top-notch product.
